SUMMARY

I aspire to work in the roles of Front-end & Back-end Developer at a company where I can apply the knowledge I have acquired to further develop myself and contribute to the company's success.

I'm really eager to learn new things and I'm not afraid of challenges. I'm always ready to work hard and overcome any obstacles that come my way. I enjoy challenging situations because they give me the chance to learn and grow, improving my skills and abilities along the way.

EDUCATION

HUTECH UNIVERSITY

Senior college student in Software engineering

Expected Graduation: October, 2024

- **GPA:** 3.3 / 4.0.
- **Honors:** Advanced to the final round of “HUTECH IT Got Talent” 2023 competition with Gobnb project.

PROJECTS

Coffee Blog

01/2023 - now

- **Responsibilities:** Full-stack.
- **Technologies:**
 - **Front-end:** HTML, CSS, Bootstrap, Ajax, Jquery, Summernote (Editor).
 - **Back-end:** C# ASP.NET Core 7.0, Azure, Entity Framework.
- **Description:** Coffee Blog is a dynamic platform designed for users to exchange information, knowledge, and news. It serves as a hub where individuals can engage with diverse content and contribute their own articles across various topics.
 - **Model Management:** Implementing full CRUD functionalities for managing models such as Posts and Categories, empowering users with the ability to add, edit, and delete content.
 - **Article Search:** Enabling users to easily search for specific articles of interest within the platform.
 - **Article Posting and Reviewing:** Facilitating users in posting articles and providing a review mechanism to enhance interaction and feedback.
 - **File Management:** Implementing a system for managing uploaded files, ensuring smooth accessibility and organization.
 - **Role-based Permissions:** Configuring role-based permissions to regulate access and actions for different user roles and claims.
 - **Dashboard Management:** Implementing an intuitive dashboard interface for efficient navigation and management of platform activities.
 - **User Management:** Providing tools for managing user accounts, ensuring smooth user experience and security..

Gobnb <https://gobnb3.vercel.app>
